

Russellville Elementary School

February 2019 Newsletter

We had a very successful Family Math Night last week. If you were unable to attend, we have posted some very helpful and informational videos on our Facebook page for your reference. Please take the time to watch these, as they provide a deeper understanding of how and why math is taught the way it is today. If you ever have questions about your child's coursework, please do not hesitate to reach out to us with any questions or concerns you may have.

We also have a group of students who have developed a wonderful community service project. They would like to raise money to award a scholarship to a deserving high school senior. We will be sending home additional information about their first fundraiser this week. They plan to sell personalized Valentine's Candy Bags for \$3.00 from February 4th-February 8th. These would make the perfect Valentine's treat for a classmate, friend, or even faculty member at RES!

Russellville Elementary School, in conjunction with WES, RMS, and RHS, will be participating in Career and Technical Education Month during February. We are responsible at the elementary level for developing career awareness and introducing our students to the variety of traditional and non traditional occupations. Mrs. Wade, our guidance counselor, will be focusing on the career domain and helping our students understand that post secondary education and life-long learning are necessary for their future success. Each student will also be taking a career interest inventory in an effort to explore various careers they may be interested in. Our 5th graders will also be touring the Career Technology Department at Russellville High School during the month of February and we will let parents know when we confirm the date soon.

We are looking forward to our classroom Valentine Parties on Thursday, February 14th. Parties will begin at 1:30 PM. Please park in the back gravel parking lot so that our handicap visitors may park in the front. Students may be checked out in their classroom after the party.
